

Global Product Monitoring
Updated October 2019

The Mallinckrodt Product Monitoring Department consists of healthcare and life science professionals responsible for handling the following compliance and U.S. Food and Drug Administration regulated activities:

- Capturing, documenting, analyzing and reviewing quality complaints for Mallinckrodt's Specialty Generics, Specialty Brands, and active pharmaceutical ingredients
- Coordinating quality complaint investigations
- Submission of Medical Device/Vigilance reports

You may contact Product Monitoring as follows to report any quality complaint or medical device event:
